

Comment se défendent les animaux ?

Classe les animaux selon leur manière de se défendre. Découpe-les et classe-les dans le tableau. Nomme-les.

Ils se camouflent	Ils fuient	Ils se cachent	Ils font face

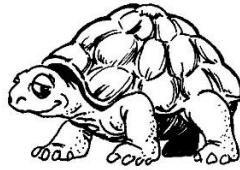

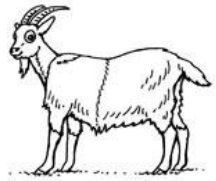

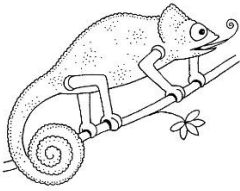

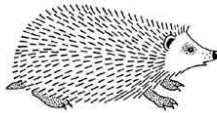

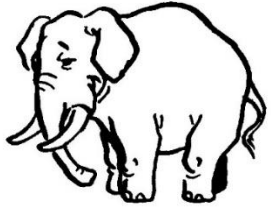

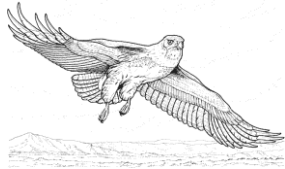

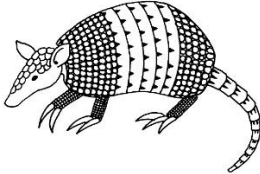

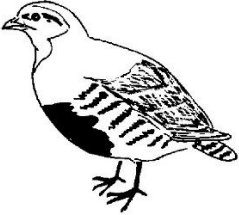

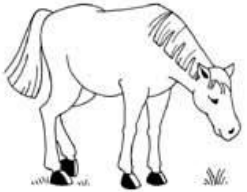

colibri – perdrix - escargot – caméléon – cheval – hérisson – papillon – hirondelle – tortue – éléphant – coccinelle – aigle – tatou – gazelle – bouc – tigre

Trace écrite

Les animaux ont des moyens différents pour échapper à un prédateur :

- Ils se camouflent pour ne pas être remarqué.
- Ils fuient pour semer leur prédateur.
- Ils se cachent dans une carapace, une coquille, des piquants...
- Ils se battent avec leurs cornes, leurs dents, leurs pattes, leur queue...

Correction

Ils se camouflent	Ils fuient	Ils se cachent	Ils font face
			
papillon	hirondelle	tortue	bouc
			
caméléon	colibri	hérisson	éléphant
			
coccinelle	aigle	tatou	tigre
			
perdrix	gazelle	escargot	cheval
