

② Ecris sous chaque animal son nom : *abeille, poisson, grenouille, chauvesouris, souris, kangourou, lapin, lézard, serpent, coccinelle, baleine, loup, humain, scorpion, escargot, girafe, éléphant, gazelle, ours, poule*

Trace écrite : Les oreilles sont les organes de l'ouïe et servent à entendre. Les oreilles de l'homme sont visibles comme celles de la plupart des mammifères. On parle d'oreilles externes ou pavillons externes. Ce n'est pas le cas de tous les animaux qui ont parfois des oreilles internes ou pas d'oreilles.
